# About Our Tutoring

Is your student in need of extra support to achieve their literacy goals? Are you looking for additional resources outside of the classroom? Considering homeschooling but unsure where to begin?

At Fairview Learning & Coaching, we understand the importance of consistent intervention in achieving literacy goals. Through years of training and implementation, we've learned that consistency is key to success in literacy.

Without consistent intervention, students may struggle to meet their reading goals. That's why we've developed a program aimed at ensuring consistency for all students.

Our program is designed to assist parents, educators, and homeschoolers in supporting students to achieve their literacy goals. Whether your student is learning at home or in a traditional school setting, our program can provide the support they need.

Our common goal is to achieve grade-level literacy for all students, and we're here to help you make that happen.

# What is Fairview's Online Tutoring?

- The Fairview Learning & Coaching Online Tutoring Program offers fully customizable tutoring sessions to meet your student's specific needs. Led by Owner/CEO and Master Trainer, Trish Vierra, these sessions are tailored to your student and can range from 30 to 60 minutes in length, depending on their requirements.
- Before starting the tutoring sessions, Trish conducts a comprehensive assessment to identify your student's needs. Based on this assessment, we schedule sessions that fit YOUR schedule. These sessions are conducted via Zoom for convenience.
- Following the free initial assessment, our Fairview Team will provide recommendations for the next steps. Once we've agreed on the plan, we'll work with you to schedule your tutoring sessions.
- During our Fairview Learning Online Tutoring program, you won't need to purchase any materials. You'll have access to all necessary materials for the duration of the tutoring sessions. However, if you choose to continue using the program after tutoring has ended, materials will need to be purchased.
- Contact us today to schedule your free initial assessment and take the first step towards unlocking your student's full potential!

# Reviews

“My student and I have been using Fairview since November of 2021. We work with Trish 2 days per week on Tuesdays and Thursdays. Prior to working with Trish, I was the only source of communication for everyday life. My student’s reading level was barely at a 2nd grade level being in the 6th grade—since working with Trish, my student has made great progress. Trish’s program is nothing short of amazing.

With the program being online, I was concerned that it wouldn’t be as successful as it has been. It has totally exceeded my expectations! My student has someone else to communicate with, read with and learn from.

Trish, we thank you. We appreciate all that you do with us. With me, as his interpreter, you have helped me in my interpreter walk as well.”

–Interpreter

“You helped. This is a blessing. Finally something– this is the first year I haven’t cried! He is actually wanting to communicate now!”

–Rochelle
